GAMBLING RAGE
HITS FAIR SEX

(Correspondence of Associated Press)
 LONDON, July 21.—Some of the London newspapers lament that English women and girls have gone "betting mad" and that it is a common thing for girls in offices, on the stage, married women, and even school girls to lay wages varying from six pence to a pound.
 "Why shouldn't we gamble?" one pretty office girl asked. "Now the war is over we must have some harmless excitement, mustn't we?"
 "Some of us bet on tennis and golf, on engagements to marry, and even on what word people will open conversation with."
 A business man complained his five girls "chatter more about their bets than their work" and another declared his cook scolded "more concerned about odds than events."
 "She has even incited my wife to making bets," he added.

TELEPHONES ON
SUBWAY TRAINS

(By Associated Press)
 NEW YORK, July 20.—"Loud speaking" telephones are soon to give New York subway riders relief from the inarticulate sounds emanating from guards in announcing subway stations.
 The telephone instrument, which is to be installed on the Brooklyn lines, will not only be employed to announce stations but will be used for such various warnings as "watch your step," "step lively please!" etc.
 The phone is operated by the conductor or guard at the center of the car who speaks in an ordinary voice through a transmitter, his words coming forth in increased volume at each end. The phone is also audible on the car platforms.
 Loud speaking receivers are installed in the ceilings of the cars near the doors and are hardly visible. The openings are about eight inches in diameter, but screened and painted the same color as the ceiling.
 The phone operator is provided with a high efficiency transmitter which is small and can be carried around in the pocket or held in the hand. It has a cord similar to that on the regular telephone and connection is made with the telephone system by "plugging in."

BAGUAN ISLAND
DISPUTE TOPIC

(Correspondence Associated Press)
 MANILA, P. I., June 24.—The Philippine government has renewed negotiations for control of the little island of Baguan, only thirty miles northeast of British North Borneo in the Sulu Sea. Baguan, although part of the Philippine group ceded by Spain to the United States in the treaty of Paris, has remained under the control of the British North Borneo government, because of the proximity to that island.
 Baguan, also known as Turtle Island on account of the great number of turtles there, is inhabited by Moros, who Philippine officials assert, should be placed under the control of the government of the Sulu Archipelago which is the southernmost part of the Philippine group.
 Sir Aymer Pearson, governor of British North Borneo, has been visiting at Baguio, the summer capital of the Philippines and officials of the Insular government hope to complete the preliminary negotiations with him for taking control of Baguan, so that the matter might be presented to Washington for final adjustment in a short time.
 The island of Baguan is said to be the clearing house for a ring which smuggles large quantities of opium into the islands of the Sulu archipelago as well as into the island of Mindanao. Officials believe this opium traffic can be broken up when Baguan is brought under control of the Philippine government.

WEAR BEADS TO
WARD OFF FATE

(Correspondence Associated Press)
 CONSTANTINOPLE, July 1.—Beads are more necessary than bread to the Levantine. Men, women and children wear and carry beads to ward off ill luck. Even the horses and donkeys have strands of beads about their necks "to baffle the evil eye" and the long horns of the work oxen are decorated with blue and white beads to keep them from falling prey to diseases.
 In Athens, Constantinople, Tiflis, Smyrna and other cities of the Levant men of all classes carry short strands of fidget beads which they play with while walking in the street, riding in street cars and trains, just as nervous men in the west finger their watchchains. Bead shops abound everywhere in the larger cities and general stores and market stalls sell them in the smaller places. Peddlers hawk them in the streets everywhere.
 Light colored amber beads of large size are the latest thing in beads for women. Meerschaum beads are also popular and for the moment plain beads of the type which Syrians produce in great quantities for export.

WOULD BOYCOTT
U. S. PRODUCTS

(Correspondence Associated Press)
 BERLIN, July 2.—German manufacturers of adding machines are appealing to the government for assistance in their fight to prevent the importation of American made machines which they claim now are superfluous as the Germany industry is capable of supplying the home demand.
 Action has been precipitated by the application of a well known American firm through its Berlin branch for permission to import 1,500 adding machines to meet the German demand until the American firm has completed its local branch factory.
 The German manufacturers have addressed a joint appeal to the ministry of Economics demanding further enforcement of the existing import embargo and requesting that whole sale importation should be prohibited.
 The "Vorwaerts" declares that, while the German working man does not desire to be placed under the domination of American capital, the present action by the German makers is undignified and not in keeping with the German efficiency which has always been able to assert itself in the competitive markets even when pitted against American enterprise.

PLACE DOCTORS
ON ALL TRAINS

(Correspondence of Associated Press)
 TOKIO, June 24.—Japan will take on a progressive step by maintaining a doctor and proper medical facilities on all the principal trains leaving Tokyo.
 "This plan has been contemplated for nearly six years," said Mr. Momose, chief of the sanitation section in the railway department, "but has so far been neglected for want of necessary funds. Judging from past experiences, patients found on the trains bound on long journeys often number above 40 and some are frequently in such a condition as to require immediate medical assistance."
